[Add Course](#)[Go to Top](#)**Manually Removed Requirements**

The following requirements have been manually removed from your planner. This does NOT mean that you are exempt from these requirements. They are still necessary to complete your degree (unless you have received a waiver for the requirement from your academic department/program). However, it is possible that you have completed a requirement in a way that the system cannot detect (e.g. transfer or test credit that has not been posted yet). Please check with your academic success coach or faculty advisor if you are not sure. To move a requirement back into your plan, click the Restore link on the appropriate line.

If you removed any requirements due to transfer credit that has not been posted yet, once the transfer credit is posted, these lines will be considered Complete, and will automatically disappear from this section.

Pegasus Path is a tool used to assist students, academic success coaches, and faculty advisors in arranging courses for degree completion. The order of courses presented does not guarantee a degree will be awarded by the timeline presented. Students should refer to their myKnight Audit and meet with their academic success coach to ensure degree completion. Your use of Pegasus Path does not constitute a contract with the University. It is a planning tool to help you attain your degree goals in a timely manner. Be aware that your plan may require changes based on your progress in courses, changes in degree objectives, course availability, and changes in curricula or policies.
